

Who we are

Since Custom Powders was founded in 1979, it has become an established name in the powder and granulation processing industry. It is associated with a high level of quality and an excellent service. We have achieved this position by exercising a fervent innovative policy and listening very carefully to the wishes/ requirements of our customers and undertaking continuous investment in new technologies.

Over the years we have built up a wealth of experience and knowledge and this base is very well maintained and expanded. Custom Powders biggest strength lies in her experienced and very motivated employees. More than 60% of the employees have been in our service for more than 10 years. All of them are obliged to run through a continuous deve-

lopment program in order to keep their skills and knowledge up to date and to keep them motivated to provide a top quality service.

We have got two production locations, one being in Crewe (UK) and the other one being in Helmond (NL). Both locations are situated in industrial areas with all types of companies around us. We value our surrounding and

the environment and try to take a lead role in maintaining these.

We are proud of the position we have in the industry and your quality-, safety- and environmental audits will show you that we work as well to the spirit as to the letter of the conditions in ISO 9002, ISO 14000 and Responsible Care.
